(54) Title: TIGHT CONTROL DEVICE

(57) Abstract: A tight control device (1) for the transmission of a rotary motion from a primary shaft (3) to a secondary shaft (5), allowing the volume (P) housing the primary shaft (3) to be separated in a tightly manner from the volume (S) housing the secondary shaft (5), said device comprising a couple of sloped parallel rotating plates (7, 11), each one being fixed to a corresponding one of said shafts (3, 5), interconnected by means of oscillating parallel rods (9), articulated to corresponding C-shaped cages (13, 21) arranged around said plates (7, 11), in order to allow said plates (7, 11) to rotate therein.

INTERNATIONAL SEARCH REPORT

International Application No

PC 03/12173

A. CLASSIFICATION OF SUBJECT MATTER
IPC 7 F16D1/02 F16K31/52

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
IPC 7 F16D F16K

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category °	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
A	GB 391 789 A (WALTER OSBORNE) 3 May 1933 (1933-05-03) page 3, line 31 - line 73; figure 1 -----	1
A	US 5 165 657 A (MCLENNAN WILLIAM R) 24 November 1992 (1992-11-24) cited in the application abstract -----	1,25,26

☐ Further documents are listed in the continuation of box C.

☒ Patent family members are listed in annex.

° Special categories of cited documents:

- *A* document defining the general state of the art which is not considered to be of particular relevance
- *E* earlier document but published on or after the international filing date
- *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- *O* document referring to an oral disclosure, use, exhibition or other means
- *P* document published prior to the international filing date but later than the priority date claimed

- *T* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- *X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- *Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- *&* document member of the same patent family

Date of the actual completion of the international search
